

Hackmatack Playhouse is seeking a costume designer/wardrobe manager for two productions in our 2017 Summer Season. The productions are *She Loves Me* and *The Fantasticks*. Rehearsals for *She Loves Me* are scheduled to begin on Memorial Day Weekend, and *The Fantasticks* is scheduled to begin rehearsals on July 28, 2017. The theater would prefer to hire one designer for both shows, however, we will accept resumes for designers only available/interested in one of aforementioned productions. This is a paid, non-union contract.

**Job Description:** Design, implement, and maintain/manage costumes for *She Loves Me* and/or *The Fantasticks*. Designer/Wardrobe Manager is expected to meet with director and discuss desired needs for the production, attend various rehearsals and all production meetings, perform fittings, design/implement costumes for the production, and generally oversee all aspects of costumes for the production. Designer is expected to be in attendance for tech week, perform any repairs throughout the run, and launder/return all costumes to their rightful place following strike. The ideal candidate works quickly, efficiently, creatively, and is able to think on their feet. We are a summer stock theater with a quick show turnover. Our theater was founded in 1972, and is family owned and operated. We are a unique space, with our theater being housed in a converted barn in Berwick, Maine. For more information on our theater and it's history, please visit our website at: [www.hackmatack.org](http://www.hackmatack.org)
